our ethos

pr home is dedicated to supplying furniture & accessories for interior & exterior locations to domestic & commercial clients.

We encapsulate a philosophy of design, craftsmanship, attention to detail & a high level of service, supplying products that are surprisingly well priced. 90% of our furniture & 50% of our accessories are designed in house with manufacture in our own factory or with “Partner” manufacturers throughout the world.

Our furniture is made to withstand the rigours of commercial use. Domestic clients can benefit from the same durability & enjoy many years of use. We passionately believe that making products that will last is the best way to promote sustainability by using the raw materials we have responsibly.

Our products can be viewed at our showroom, on line at www.prhome.co.uk or through a network of designated stockists throughout the UK. Details of our stockists can also be found on our website.

Our showroom is located in the pretty village of Cuckney, North Nottinghamshire, where we have around 600 sq.m of interior space & a beautiful garden & terrace to display our extensive range of outdoor furniture & accessories. We are always on hand to offer advice where needed within a relaxed but inspiring environment for you to enjoy your visit.

our showroom & surrounding area

Located on the edge of the Welbeck estate & within a short distance of Clumber Park & Sherwood Forest, our showroom is surrounded by inspiring countryside with many other attractions close by.

Welbeck, has in the last few years, developed a number of new enterprises including the award winning Welbeck Farm Shop, School of Artisan Food, Welbeck Café & Welbeck Abbey Brewery. These new businesses now compliment the Harley Gallery, with its award winning architectural conversion by Leo Godlewski, as well as the adjacent artist & craft studios.

The nearby Creswell Crags is one of the most important prehistoric sites in Europe with Ice Age rock art, drawn 13,000 years ago but not discovered until 2003.

THE PORTLAND COLLECTION

We have around 600 sq.m of interior showroom, with half an acre of garden & terraces overlooking one of the loveliest views in Nottinghamshire. We use this area to show our extensive range of outdoor furniture & accessories.

We try very hard to make all our visitors feel welcome in a laid back environment. We are on hand to offer advice to whatever level our customers require right up to a full interior design service.

Our Farrow & Ball studio is located within the showroom and we pride ourselves on the service we offer to make sure that everyone has the wherewithal to make the right choices for their paint or wallpaper.

These days the Internet has promoted great change to our shopping & leisure activities but there is no real substitute for real life experience if it is presented in an inspiring format where products can be both viewed & tried in situ.

Why not visit us and enjoy a unique buying experience!

our style

As we design over 90% of our furniture in-house, we believe our product range has a common aesthetic and feel. Different product ranges can be used comfortably with others in the range. If you had to categorise our style though, it could probably fall into three areas:

Scandi Modern - The lines between the golden age of Scandinavian style and Mid Century Modern can be very entwined. For us, it's a combination of natural materials with clean lines, subtle colourways and functionality. At the core of all of this is a connection to the natural world and in particular, embracing the warming tactile nature of timber.

Modern Classical - Classical shapes with a contemporary refinement. This is a style drawn from classical architectural lines, proportions and balance, however it does not live in the past. It is not driven by trends or fads, it is here to stay the course, it is timeless.

Bohemian - A more relaxed style with room for freedom, layering, and indulgence. Luxuriant items with bold fabrics, curvaceous lines and maybe a bit of deep buttoning coupled with other quirkier items. This is a style that reflects the individual and tells their story.

To illustrate these styles we have taken a room and given them three different treatments...

Scandi Modern

Modern Classical

Bohemian

interior wood finishes

Several of our pieces in natural hardwood are available with different treatments and stains for the wood.

These provide a protective, stain resistant, micro-porous and breathable layer to the wood, with the exception of the earth stain which purely alters the colour of the wood.

Where this icon is shown, the product is available in these finishes; natural, raw, protective oil, stained protective oil, whitewash & earth stain.

NATURAL

RAW

PROTECTIVE OIL

STAINED PROTECTIVE OIL

WHITEWASH

EARTH STAINED

Natural - Totally untreated hardwood.

Raw - Our most subtle treatment, adds a protective, breathable layer to the wood without altering the colour too much.

Protective Oil - Enriches the colour of the timber whilst providing a strong barrier against marking and staining.

Grey Stained Protective Oil - As above but adds a greying finish to the timber giving it a walnut like colouring.

Whitewash - A whitewash treatment which is then finished with a protective top layer.

Earth Stain - A very dark brown stain.

pr home upholstery, designed by us, made by us..

All of our upholstery is designed and manufactured here at our base in Cuckney, Nottinghamshire.

We use locally made hardwood frames and carefully sourced materials which are brought to life by our skilled in house team of upholsterers.

We carry over 50 fabrics in stock in our upholstery workshop (see pages 43-45). We also have access to other UK fabric suppliers, such as Ian Mankin and Abraham Moon and can work with any suitable upholstery fabric you supply.

For details on availability and pricing, please contact the office:

loft

We have taken the basis of our Loft upholstered range and given it a little redesign so that it now can be used as sectional seating. The deep seat and generous arm & back, lend themselves to a supremely laid back corner set up. Using its three components (single unit, corner unit and arm), the loft can be tailored to fit your needs, not only as sectional seating but as a compact sofa or large sofa (as shown below).

mode

Versatility is the name of the game here! Functional and stylish, the modular nature of the Mode means it can be tailored to fit most rooms. Mode has foam seat pads on a sprung base, sprung back & a choice of dark hardwood feet or a tapered “apartment foot” shown on the opposite page.

how it works..

Configurations are made using a combination of the four main components:
Double Unit, Corner Unit, Single Unit & Footstool.
The configuration opposite combines corner and single units to create a full height arm.

berlin

Berlin is a new sectional range we have introduced where versatility is paramount. The various elements of Berlin mean it can be tailored to fit many a living space. With a slightly smaller footprint than the Mode and a shallower seat (due to the back cushions) it's an ideal solution for rooms where space is an issue. Berlin is upholstered onto a hardwood frame with foam seat pads on a sprung base with metal feet. The fibre back pads (which can be plain or buttoned) are optional, as an alternative, large scatter cushions can be used instead.

The back pads on the Berlin can be buttoned for a slightly different look.

Should the metal feet not be what quite right for your scheme, we have other alternatives.

terrain

Our new upholstery fabric for modern life!

ECO FRIENDLY

Terrain has been designed and made, to maintain as low a carbon footprint as possible. The textile mill uses locally produced, upcycled fibres to produce this strong and durable fabric. The upcycled nature of the yarn & it's clean production process, means it doesn't use water or harmful chemicals when it's produced.

STAIN FRIENDLY

A yarn that's inherently cleanable and dirt repellent means most stains can be cleaned by just soap and water. Unlike a lot of other easily cleanable fabrics, the Terrain uses no PFC chemicals.

HUMAN FRIENDLY

Free from harmful chemicals and inherently stain resistant Terrain is ideal for modern family homes. It's also fast drying and can easily regulate temperatures, so no overheating in the summer.

upholstery fabric

Our upholstery fabric range has continued to evolve over the last few years.

We now only have *two* core price bands; a & b.

Each fabric band is a different price point; *Band b* being the least expensive and *band a* the most expensive.

divans & mattresses

We have four different qualities to choose from: Deep Quilted, Super Tufted, 1000 Count & 2000 Count Pocket Sprung. Each have their own uses, so take your pick.

DEEP QUILTED An open coil mattress with individual high tensile steel springs that are linked together. The outer edges are framed with heavy gauge wire to keep their shape. Various layers of padding are then applied to create the right balance of comfort and firmness.	SUPER TUFTED An orthopaedic open coil mattress with generous cotton & felt padding for comfort and durability. The outer core of the mattress is buttoned or tufted to help stabilise the spring units. Super tufted mattresses are finished in cotton ticking.	1000 COUNT POCKET These luxury mattresses deal effectively with any pressure points, making them a perfect sleeping surface. Pocket Sprung mattresses are finished in cotton ticking.	2000 COUNT POCKET These mattresses have a firmer base than the 1000 pocket versions. Luxurious polyester fillings & butterfly clips around the entire mattress give added support & the border is quilted using a top grade durable cotton material.

outdoor

Since the inception of our company over 25 years ago outdoor furniture has been a passion.

Working with a variety of materials including plantation teak, polyethylene, wood polymer composite, powder coated aluminium, stainless steel and terrazzo, we have designed & developed a fabulous collection of outdoor furniture and accessories that have graced many gardens & terraces throughout European commercial & domestic locations.

The ever growing list of satisfied customers are a splendid endorsement of the quality and longevity of our products.

We use high quality olefin and cotton canvas for our exterior upholstery which is manufactured in-house and all complies with uk source 5 regulations.

Outdoor teak - before and after

When exposed to the elements, the colour of teak weathers to an attractive silver grey colour.

environment

We use teak, aluminium, stainless steel, powder coated & galvanised steel with the highest quality synthetic rattan in the production of our furniture.

Teak is not indigenous to Indonesia having been originally introduced some 700 years ago by Buddhist monks. In the 19th century the Dutch colonists developed the plantation system for growing this valuable timber, which is still in place today & controlled by Peram Perhutani, the government controlled forestry department. Throughout their long growing cycle, the trees are cared for by the local population.

The teak wood used in the manufacture of our furniture is from a factory in Indonesia who have a long association with forestry development and the principle worked for many years for Peram Perhutani in a senior management position.

All our Indonesian factories have the V-Legal certification necessary to comply with the EUTR EEC timber regulations.

hospitality

We have supplied pubs & bars, small B&B's & large international chains, tiny coffee shops & famous restaurants, health spas & care homes. All our clients, irrespective of size or reputation, were looking for quality, style & value for money, which is our raison d'être.

We have a long list of satisfied customers throughout Europe.

We are happy working through Interior Designers & Architects or directly with the end user & we have products for most interior & exterior locations. Whatever the requirement, our furniture is made to withstand the rigours of commercial use.

We have an extensive range available from stock but products can be tailored to design briefs with advance planning depending on the item. Our sales department will be happy to advise on lead times for bespoke products.

interior designers

Over the past 10 years our business has expanded rapidly with Interior Designers, helped by understanding the challenging environment when working with demanding clients & tight schedules.

We try to help smooth the journey & take out some of the stress. Not everything is possible but we endeavour to cover all requirements, working to reach a satisfactory conclusion.

For upholstery we have many of our own fabrics but are equally at home working with customers own material. Deliveries can be made directly to site, warehouse or shop.

bespoke products

Although we have a substantial range of furniture and accessories available from stock, there is the possibility for bespoke products.

This may involve a simple change of material e.g. changing the colour or texture of a synthetic rattan, or a complete design brief to create a new item. In either case there will be minimum quantities and extended lead times to consider, which will vary depending on the product, so please feel free to contact us for further information.
