our indoor furniture

Pr Home are a family-run company that has been designing, producing, and supplying high-quality contemporary furniture and accessories since 1989.

Our products are crafted for both commercial and domestic environments. While robust and well-made, they will also add warmth and style to any home.

Based in rural Nottinghamshire, we design over 90% of our furniture in-house, so our products have a unified aesthetic and feel. Influenced by Scandinavian and Mid-Century design, our design ethos has always been to treat functionality and aesthetics with equal merit. In short, we make stylish and durable furniture that is built to last

It's important to us that our products stand the test of time, that's why the majority of our furniture is made to our specification in trusted factories we have worked with for a number of years. Coupled with this, our fully upholstered furniture is made to order here on site by our in-house team of upholsterers.

As our focus has always been to create stylish and durable contemporary products, we regularly supply our indoor and outdoor furniture to commercial clients such as gastro pubs, boutique hotels, holiday accommodation, spas and restaurants.

Over the years we have also supplied several prestigious retailers, interior designers and organisations.

We use two main types of wood on our indoor furniture; Oak & Teak.

Oak

We use high quality solid oak on a large number of our indoor furniture ranges such as Chameleon, Tenby & Totem. Our oak comes with an oiled finish as standard, without the option of additional finishes*.

*The only exception to this is our Rib chairs and Refectory table tops; where there are some options to choose additional stains and finishes.

Teak

We use plantation teak on several of our occasional tables, dining tables and armchairs. Our teak comes untreated as standard, giving it a smooth sanded finish. Additional stains and oils can be used on ranges such as Shoreditch, Trestle & Holborn (see details below).

We also offer oiled/stained options on certain pieces made in Meh wood or as we refer to it "natural hardwood".

the wood we use

Selected teak and natural hardwood items are available in additional finishes. Look out for the symbol throughout the brochure.

NATURAL

Totally untreated teak or hardwood.

RAW

Our most subtle treatment, adds a protective, breathable layer to the wood without altering the colour too much.

PROTECTIVE OIL

Enriches the colour of the timber whilst providing a strong microporous barrier against marking & staining.

STAINED PROTECTIVE OIL

As per the protective oil but adds a greying finish to the timber giving it a walnut like colouring.

WHITEWASH

A whitewash treatment which is then finished with a protective top layer.

Please note this finish is not suitable for teak items.

EARTH STAIN

A very dark brown stain.

pr home upholstery designed and made by us

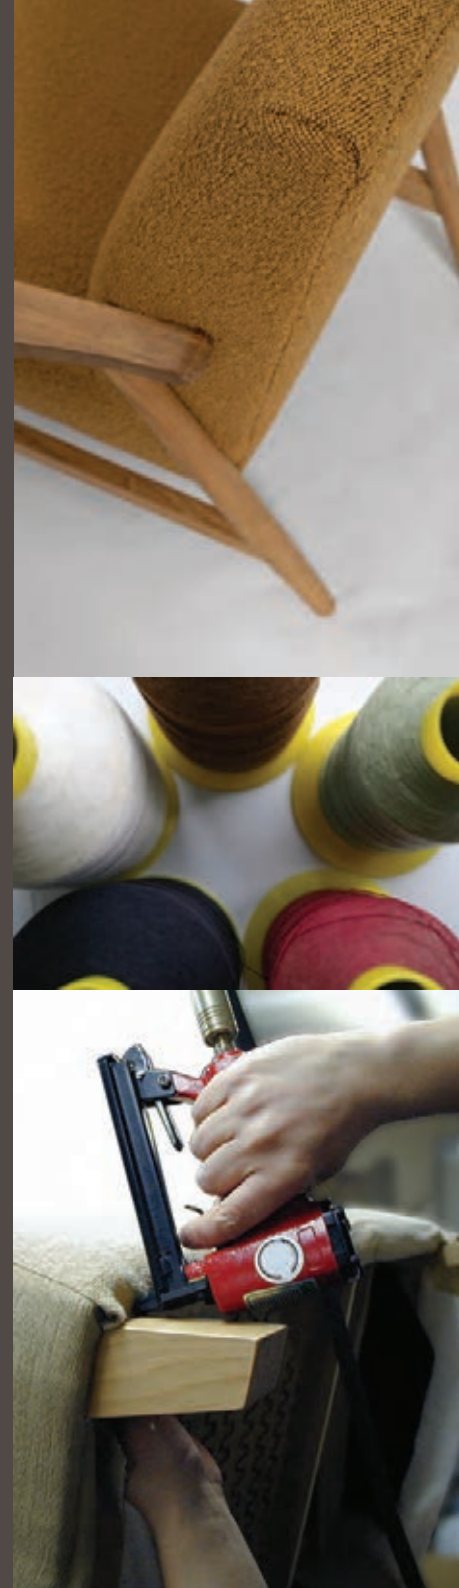

Our upholstery is designed and manufactured here at our base in Cuckney, Nottinghamshire.

As we have our own upholstery department, it allows us control and a degree of flexibility on our upholstered furniture. Our upholstered items can be split into four main categories:

- **Locally made upholstery frames** – These are our sofa and armchair frames which are made for us locally. These frames are made in hardwood (generally beech) and have an extremely strong construction using dowelled, screwed and glued joints. These frames carry a 10 year guarantee on the frame and are used on our fully upholstered products such as our Selsey, Lewes & Brighton ranges. We can upholster these products in any of our fabrics or any suitable C.O.M.
- **Imported items for upholstery** – Products that are made for us overseas, which we then upholster here. These are items such as our Shoreditch Armchairs & Hampstead Dining Chairs. We can upholster these products in any of our fabrics or any suitable C.O.M..
- **Inhouse made upholstery frames** – These are frames made by our in-house team using solid wood and timber sheet materials. These are generally for items such as our upholstered cubes, Lyon stools, Marylebone upholstered tables, Shoreditch backless benches & Slim headboards. All of these items are available in any of our upholstery fabrics or any suitable C.O.M.. As these frames are made inhouse, there is the possibility of producing custom sized items, just contact the office to discuss options.
- **Ready made upholstered items** – These are products which we import already upholstered, such as Lauren dining chairs, divan bases and Soho & Brooklyn headboards. These items are only available in the listed options.

Fabrics

We carry well over 50 fabrics in stock in our upholstery workshop. We also have access to other UK fabric suppliers, such as Ian Mankin and Abraham Moon and can work with any suitable upholstery fabric you supply, providing it has been FR'd or is made from at least 75% natural fibres. For our stocked fabric range see pages 36 - 39.

mode

Our Mode sectional seating range is a supremely versatile modular seating range which can be tailored to fit your individual needs. Chose from the individual components to make a set up specific to your space. Part of our seating range for many years, the Mode has had a recent redesign to now feature fixed spring section seats, which allows for a more unified look on “L” sections and larger scale set ups. The Mode has a hardwood frame, fixed upholstery and metal feet as standard (other foot options are available).

how does it work? The Mode has five basic elements: double unit, single unit, corner unit and footstool. “L” sections can be created by combining single and double units with corner units. Large scale settings are also possible by using runs of double or single units.

...and the arms?

Arms are optional, the Single and Double units can be ordered with arms to add the finishing touch to a set-up. Single and Double units can even be ordered with two arms to create an armchair or sofa. Alternatively, for a different look, corner units can be used on the end sections to create a full height arm.

berlin

Berlin is a sectional range we have introduced where versatility is the order of the day. The various elements of Berlin mean it can be tailored to fit many a living space. With a slightly smaller footprint than the Mode and a shallower seat (due to the back cushions) it can be an ideal solution for rooms where space is an issue. Berlin is upholstered onto a hardwood frame with foam seat pads on a sprung base with metal feet. The fibre back pads (which can be plain or buttoned) are optional, as an alternative, large scatter cushions can be used instead.

The back pads on the Berlin can be buttoned for a slightly different look.

Should the metal feet not be quite right for your scheme, we have other alternatives.

Require something slightly different?

As we have always worked with customer's own material (c.o.m.), we are well used to seeing our upholstered furniture in differing guises.

However did you know that we can also produce different sizes on some of our upholstered products?

Our upholstered cubes, tables and storage tables are manufactured entirely in-house; meaning we have a degree of flexibility and can produce bespoke sizes.

So, should you need a Hinged Cube with slightly different dimensions, or a larger Marylebone upholstered table, please give the office a call to discuss your options.

We have well over 50 stocked fabric lines available to use with our upholstered furniture, these range from UK made wools to cottons, synthetics and recycled yarns. These are split into three price bands: Moon, Band A & Band B. With Moon being the most expensive and Band B the cheapest. Our fabrics are suitable for all of our indoor upholstered furniture and are also available to order by the metre.

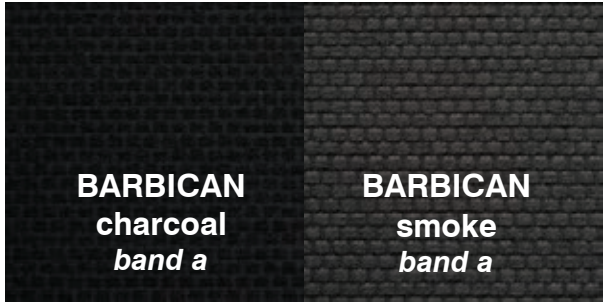

MOON - Our core range of eight UK made wools. The Donegal combines Donegal and Shetland type yarns for a beautiful, slightly flecked fabric. The Sears use a subtle modernist pattern which pairs beautifully with our furniture. 100% New Wool. As well as these we have access to Moons full range of fantastic UK made wools.

ARRAN - Part of our aquaclean® range, which allows for the cleaning of stains with water only. 53% Recycled Polyester, 23% Polyester, 14% Modacrylic, 6% Recycled Cotton, 3% Polyamide.

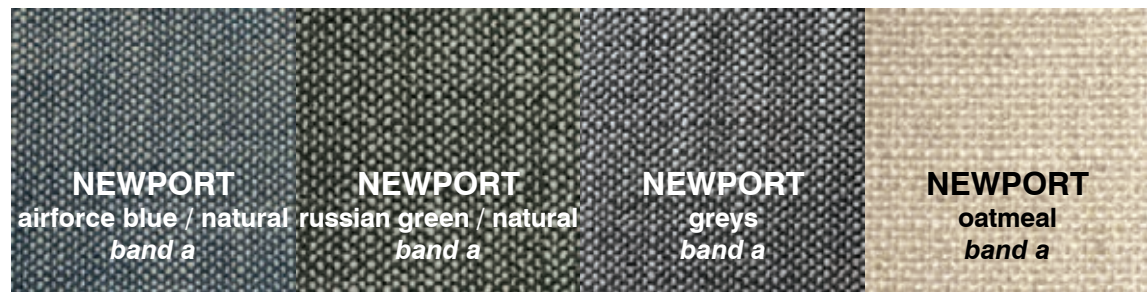

PELAGE - Luxuriously soft shearling like fabric with a short pile. 100% Recycled Polyester.

BARBICAN - Soft touched piled fabric with a "corduroy" like feel. 80% Polyester, 20% Cotton.

BOUCLE - A beautifully warm, hard wearing and tactile fabric in a characteristically irregular boucle weave. 100% Polyester.

NEWPORT - Chunky tactile fabric with an alluring two tone weave. 90% Polyester, 10% Cotton.

NORFOLK - A textured and soft to the touch check which combines the contemporary with the traditional. 49% Viscose, 29% Polyester, 14% Linen, 8% Cotton.

PAVILION STRIPE - A linen union stripe made exclusively for Pr Home by bespoke weavers. Made in Scotland. 60% Linen, 40% cotton.

HERRINGBONE - Trad. linen union pattern. Made in Scotland. 60% Linen, 40% cotton.

ORKNEY - Vibrant textured fabric in a mixed yarn. 100% Polyester.

SURFORM - A weighty and heavily textured weave. 84% Polyester, 16% Acrylic.

FLANNEL - A soft, warming and very durable faux wool. 100% Polyester.

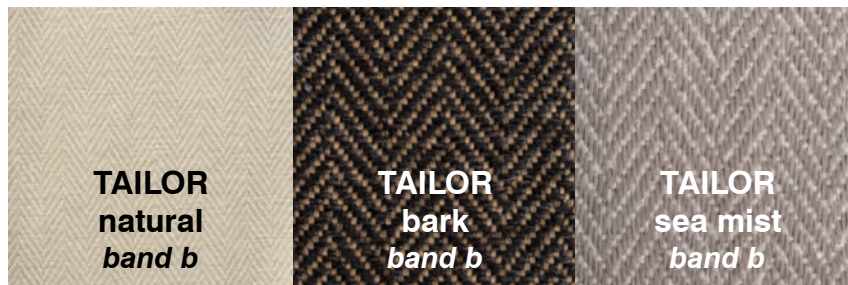

PELT - A twill type weave in a micro denier, giving it a soft and velvet-like feel. 100% Polyester.

VELVET - A beautifully fine, high pile velvet with a matt look. 100% Polyester.

TERRAIN - An eco friendly fabric with a low carbon footprint. Made from upcycled fibres, the fabric is dirt repellent with most stains cleanable with soapy water. 100% Harmolan Polypropylene.

TAILOR - A contemporary herringbone pattern. 59% Polyester, 41% Polypropylene.

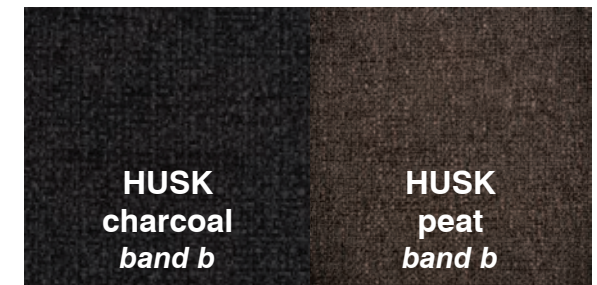

PLAID - Subtly textured fabric with a hint of sheen. 59% Polyester, 41% Polypropylene.

SADDLE - A fantastic faux leather with all the realistic look and feel of a real hide, but slightly warmer to the touch. 91% Polyester, 9% Cotton.

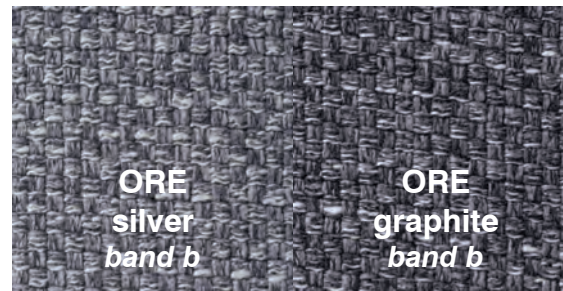

SHETLAND - A weighty and structured fabric using two tone yarns. 100% Polyester.

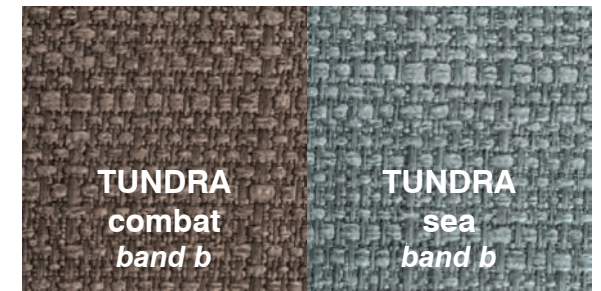

HUSK - A thick textured fabric with multiple yarns. 100% Polyester.

TACTILE - A strong yet soft fabric with a pre shrunk, tumbled finish.
Made in England. 53% Cotton, 47% Linen.

ORE - Dual colour weave with a soft touch.
90% Polyester, 10% Viscose.

TUNDRA - A structured and durable soft touch-fabric. 100% Polyester.

PLAIN WEAVE
Structured natural
fabric in bold colours.
Made In England.

Our mattress and divan range has now been reinvigorated; we have upgraded our mattress specifications and improved the construction of our divan bases. We are also now offering the divans in a choice of fabrics, with matching headboards now also available.

premium mattresses

We have recently upgraded our mattress range!

We stock;
**1,000 count pocket sprung mattresses &
2,000 count pocket sprung mattresses.**

These luxury mattresses deal effectively with any pressure points, making them a perfect sleeping surface.

The mattresses are finished with an outer layer of reflex foam, ultra breathable border sections and handles for ease of rotating.

The exterior of the mattress is finished in a soft, knitted feel fabric.

Whilst both qualities are of a superior specification, the 1,000 has a softer all round feel, whilst the 2,000 is a firmer mattress.

premium divan sets

Like our mattress range, we have revamped the divan bases we offer. Our new Premium Divan Bases have the following:

Solid structure - The divan bases now have solid wooden sides and an increased strength sub-frame to create an overall more substantial feel.

Stronger drawer - Should you choose to have drawers, our new divan bases benefit from an overall improved drawer construction. There are options for 2 drawers, 4 drawers and a large end drawer.

Solid footing - Each base has glider style feet instead of castors.

Fabric options - The divan bases are now available in a choice of five fabrics (see below).

Headboard friendly - The premium divan bases have double the amount of fixing points for headboards, making for a much more stable connection. There are also corresponding headboards (Soho & Brooklyn) available in matching fabrics.
