contemporary furniture for your home & garden

outdoor furniture brochure '26

Our Outdoor Range

One of our main aims as a company has been to create quality furniture that will last. Materials and resources are of finite supply, so we believe that by producing good quality furniture and accessories, the product will have a long life-span.

Our outdoor furniture is aimed at both the domestic and commercial market; so the comfort, the construction and the quality of the materials we use are paramount. It is important to us that with good care, your furniture will last for many years to come.

While we pride ourselves on the quality of our furniture, it is important to consider the environment you will be using it in. Flat and level surfaces are perfect for all of our ranges, however more rustic settings require more consideration.

For cobbled or uneven surfaces, it is better to choose a chair with an all aluminium construction such as; Rollo, Modena, Valencia, Genoa, Classic & Rivoli all of which have a very strong frame.

When it comes to tables for an uneven surface; we would recommend our Reclaim, Atlantic, Pigalle, Oxford & Flip Top tables which all incorporate adjustable feet.

For coastal settings we would strongly advise against items with a stainless steel construction, such as our Tripoli and Tangiers dining chairs.

*tables with
this icon in the
brochure have
adjustable feet!*

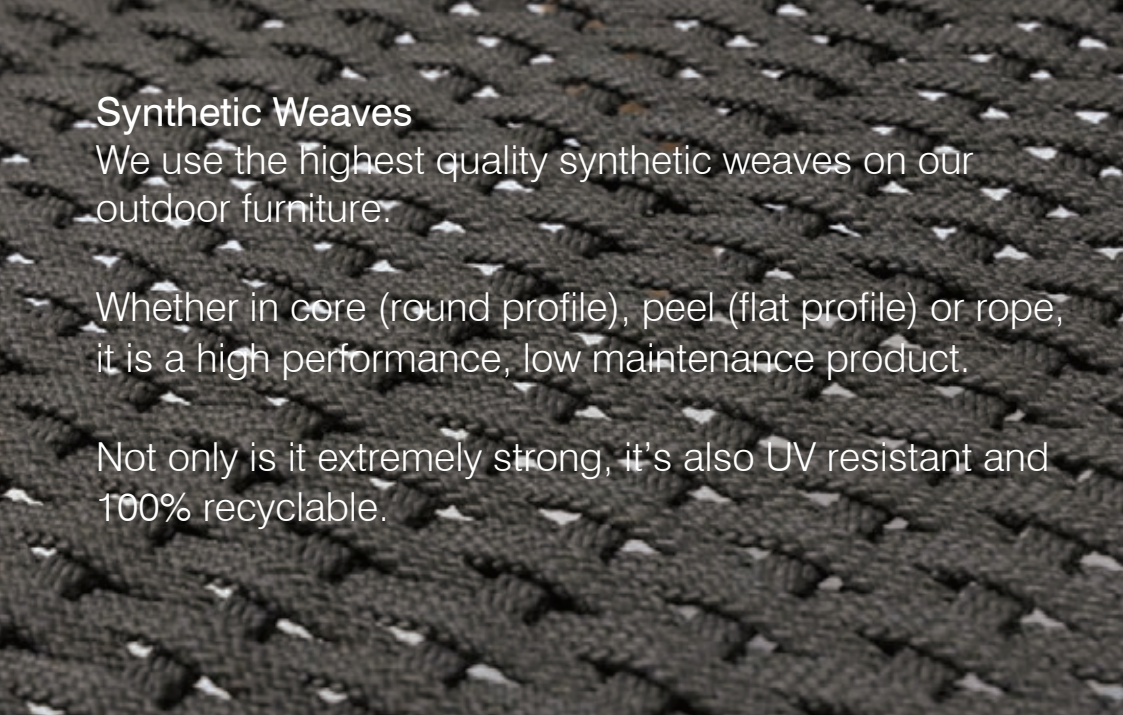

Teak

All of our outdoor teak is plantation teak from Indonesia. These valuable timbers are imported to strict EUTR & FLEGT legislation ensuring they are legally and responsibly sourced.

Please note, that when teak is used outdoors, it will turn a silver colour after exposure to the elements. This is characteristic of teak and is in no way a fault in the wood.

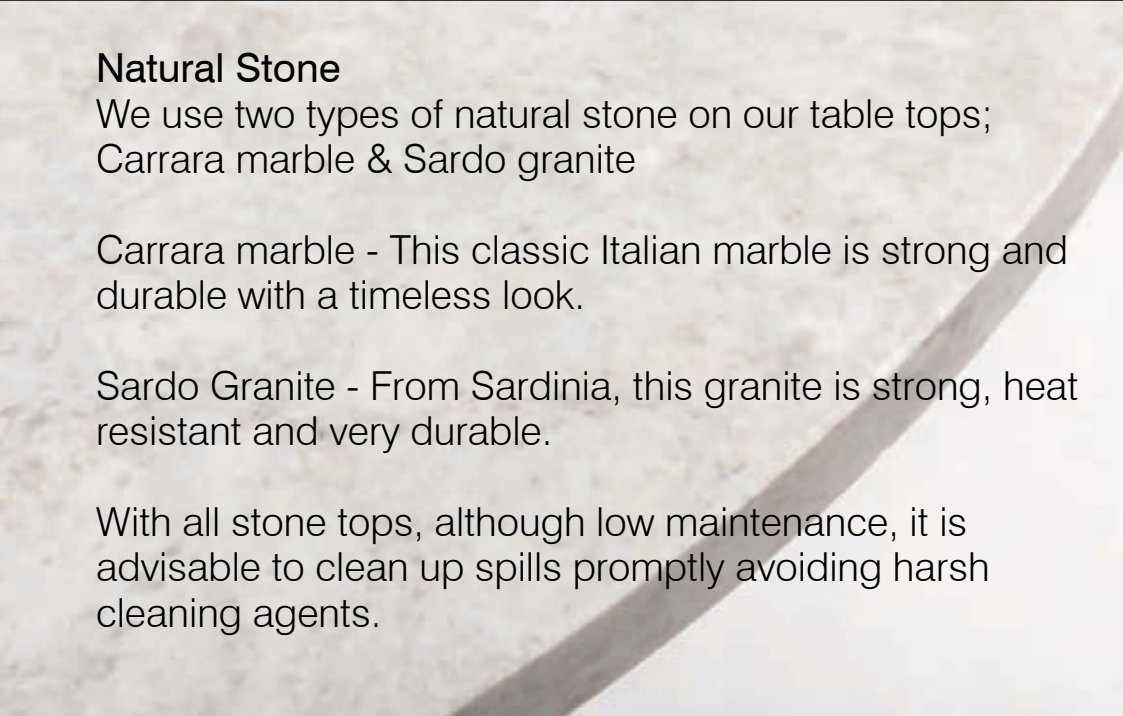

Synthetic Weaves

We use the highest quality synthetic weaves on our outdoor furniture.

Whether in core (round profile), peel (flat profile) or rope, it is a high performance, low maintenance product.

Not only is it extremely strong, it's also UV resistant and 100% recyclable.

the materials we use

Natural Stone

We use two types of natural stone on our table tops; Carrara marble & Sardo granite

Carrara marble - This classic Italian marble is strong and durable with a timeless look.

Sardo Granite - From Sardinia, this granite is strong, heat resistant and very durable.

With all stone tops, although low maintenance, it is advisable to clean up spills promptly avoiding harsh cleaning agents.

Powder Coated Aluminium & Stainless Steel

We use two types of metal for their all weather qualities:

The majority of our woven chairs and a large percentage of our table bases are made in powder coated aluminium, which is an extremely strong and durable weatherproof material without being overly heavy.

We use a high grade stainless steel on our Tangiers and Tripoli chairs. Please note however that stainless steel is not suitable for coastal locations.

Require another colour?

Are you looking to make an impact with colour or are working within a strict colour scheme? We now offer a powder coating service on some of our table bases and chair designs.

This is a high quality, weather hardy, powder coated finish which can be matched to any **RAL** colour of your choice.

This service is applicable to the following lines:
PIGALLE table bases (all sizes)
OXFORD table bases
TUNIS armchairs.

This service is based on a ten piece minimum, for further details contact the office.

Our range of outdoor proof, water & UV resistant fabrics.
All of our pads are made to order by our in-house upholstery team.

OUTDOOR FABRICS

Our aquaclean® fabrics are made with an innovative fabric treatment technology, that allows you to clean stains using water only.

Our Olefin fabrics are high quality, specialist outdoor fabrics. These solution dyed fabrics are easy-care and stain resistant.

OLEFIN STRIPE
arcachon

OLEFIN STRIPE
rhode island

Please note although the fabrics are water resistant, pads should not be left out in sustained wet weather, as the foam pad will ultimately absorb water.

Outdoor Furniture Care

Our outdoor furniture is designed to be relatively low maintenance, however some maintenance *is* required, or at least recommended. For more details please see our website:

prhome.co.uk/product-guides

Materials & Environment

It's important to us that our natural resources are used responsibly, that's why we work with trusted manufacturers and design our products to last. To find out more about the materials we use:
